DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claim 1 shows an auxiliary control button for a CD/VCD/DVD player, which has two mounting portions fixedly fastened to a face panel, an adjustment unit between the mounting portions, two spring members respectively connected between the mounting portions and two opposite lateral sides of the adjustment unit, and a press member provided between one side of the adjustment unit and one of the spring members for pressing by the user to force the adjustment unit against the control button of a CD/VCD/DVD player.

These features in combination with the other features of the claim are not anticipated by, nor made obvious over, the prior art of the record.

The closest prior art of Chen (US Patent Number 6,400,668) and Tunis et al (U.S. Patent 5,618,070) do not show a press member provided between one side of the adjustment unit and one of the spring members wherein the spring members are connected between the mounting portions and two opposite lateral sides of the adjustment unit.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
